The Oman Tax Authority (OTA) has announced the launch of the e-invoicing Program “Fawtara,” which will be implemented in phases beginning in August 2026.

As part of this rollout, the OTA has notified 100 large taxpayers via email of their selection to participate in Phase 1 of the implementation.

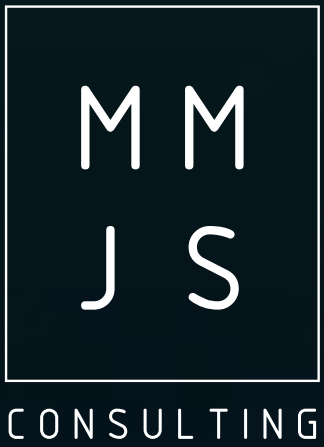

### Implementation Timeline:

Date	Milestones
Nov 2025	Publication of e-invoicing specifications on the OTA website
Dec 2025	Release of service provider standards
Dec 2025	Commencement of workshops/discussion sessions
Feb 2026	Launch of developer/test portal for service providers
May 2026	Registration and accreditation of service providers begins
May 2026	Taxpayers may start contracting with accredited service providers
Aug 2026	Go-live of e-invoicing for Phase 1 taxpayers
Aug 2028	Completion of all phases

## E-Invoicing Model & Workflow

- Oman has adopted the Five-Corner PEPPOL Model.
- Mandatory requirement: Taxpayers must issue and receive invoices only through OTA- Accredited Service Providers (ASPs).
- ASPs will:
  - Validate invoices as per OTA specifications.
  - Facilitate secure exchange of invoices between supplier and buyer.
  - Submit invoice and tax data directly to the OTA.

## What Should Businesses Do Now

Drawing on lessons from KSA, UAE and Europe, we recommend:

- 1. Conduct a Gap Assessment:** Review current ERP, invoicing, and compliance processes.
- 2. Plan System Integration:** Ensure readiness of ERP/IT for ASP connectivity.
- 3. Test Readiness:** Perform impact analyses, gap assessments, and trial runs.
- 4. Train Stakeholders:** Ensure key teams (accounts receivable, accounts payable, IT, etc.) are trained on the new e-invoicing process.
- 5. Strengthen Internal Controls:** Update approval workflows, archiving policies, and compliance monitoring.
- 6. Engage Early:** Begin discussions with service providers and advisors ahead of the 2025 specification release.

## How We Can Support?

Our team can assist you with:

- Readiness and compliance assessments.
- ERP and ASP integration planning.
- Training for finance, IT, and tax teams.
- End-to-end support for e-invoicing implementation in Oman.
